<b>Hospital info</b>	<b>4</b>
<b>Pet photos</b>	<b>4</b>

## Special points of interest:

- Dental month
- Pet picture competition
- Daisys profile
- Name the breed

## Welcome to Daisys Diary

Welcome to our first monthly newsletter. Our intrepid editor Daisy Darby plans to bring you monthly news and fun articles about pets and pet care.

Daisy has lots of things planned for the next few months so be sure to stop in and pick up a copy of Daisys Diary when you visit the hospital.

If you have a suggestion for an article for a future newsletter feel free to let one of the staff know and they

will be sure to tell Daisy .

## February is Pet Dental care month

February is national pet dental month. To celebrate pet dental month we are offering a 15% discount on any

dental procedure booked in February. If you are interested in taking advantage of this offer please

call the office at  
315 568 9449.

# Pet Picture Competition

Everyone loves taking photographs of their pets. We love seeing pictures of your pets and so we have decided to have a monthly pet photo competition.

All you have to do is take a picture of your pet and drop it off at the hospital. If you would like your photo returned make sure to put your name and address on the back of the photo.

Don't have a camera? No problem. You can draw a picture of your pet instead.

Each month we will pick a winner and you will win a bag of treats for your pet AND your photo or drawing will be featured in our next newsletter.

## Have you seen our website?

Have you ever wondered what goes on beyond the waiting room and exam room at Seneca Falls Veterinary Hospital? You can find lots of pictures and information on our website.

Go on our website and take a tour of our facility and

learn more about what we do "behind the scenes". We have a state of the art facility with all the equipment necessary to take the best care of your pet.

Visits us at  
[www.senecafallsvet.com](http://www.senecafallsvet.com)

## Name the breed

Do you know what breed of cat this is?

This cat is a cream point Himalayan.

Himalayan cats get their name from their color markings. The light body with the dark extremities make them

look like goats and rabbits found in the Himalayan mountains in Asia.

The breed was created in the 1930s by mating a Persian cat with a Siamese cat..

They have very soft fur, and beautiful blue eyes .

## Staff Profile: Daisy Darby. Senior Editor Daisys Diary

It is only fitting that our very first staff profile is about Daisy Darby-The “brains” behind our monthly newsletter.

Daisy was born 8 years ago on Long Island New York. She was adopted by the Darby family and now lives with them in Seneca Falls.

Daisy is in a long term relationship with Dibley Darby, but she loves

everyone she meets.

Her interests include walking up and down Cayuga street, sniffing, playing with Dibley, Sophie and Henry and snuggling with mom on the sofa.

Daisys natural curiosity and gregarious personality made her a perfect choice to be in charge of the newsletter.

Although Daisy has no formal training in jour-

nalism and sometimes has trouble spelling the large words and typing we are confident that she will make Daisys Diary a success.

## Winter Pet Care Tips

During this cold and snowy weather make sure to protect your dogs feet from frostbite. If your dog has been outside make sure to clean any ice melt and snow off the feet and carefully dry the feet to prevent irritation.

Use pet safe ice melt and make sure that pets who live

outdoors have adequate shelter and water and food always available. Remember outdoor pets will burn more calories keeping warm in the winter so increase their food intake accordingly.

**Keep your pet safe and warm**
